IF YOU CAN'T AFFORD TO LOSE MARK-IT.®

Recovering a lost or stolen item is largely a matter of identification. But most identification systems cost so much and take so long that it hardly seems worth it.

Now you brand virtually *anything* with an invisible identity that costs about five cents and takes about five seconds per application.

MARK-IT® is a clear, odorless, non-toxic liquid containing your own specially-formulated combination of trace elements. Laboratory analysis showing that an item has been treated with your formulation is admissable evidence in a court of law. So you can recover your property quickly and with certainty.

To learn more about how MARK-IT® can help cut your losses, write or call for more information.

TRACE SYSTEMS, INC.

SHORROCK PROTECTION THE WORLD OVER.

For almost two decades, Shorrock has been recognized as the leading innovators and suppliers of intruder alarm and perimeter detection systems. During that time, Shorrock has designed, manufactured, installed, and maintained more than 30,000 security systems throughout the world.

Shorrock offers advice on security problems and, through the Shorrock worldwide consulting services, can make available to you up-to-the-minute information on the state-of-the-art in the security world.

Systems available to you through Shorrock Inc. include:
- Microwave Detection Systems
- "S.I.D."- Selective Impulse Detector
- "T-Line" Intrusion Detection System
- Access Control Systems
- Microcomputer-based Alarm Reporting Systems

For more information, contact:
SHORROCK INC.
Parkway Industrial Center, 7235 Standard Drive, Hanover, Md. 21076. Telephone: (301) 796-8520. Telex: 87-456.

HIRE THE BEST FOR LESS!

CUT THE COST OF SCREENING AND ZERO IN ON THE BEST SECURITY AND LAW ENFORCEMENT JOB APPLICANTS

Behavioral Research Services (BRS) offers a three step assessment program that is fast, inexpensive, and simple to use.

STEP 1 You administer a well known personality test, supplied by BRS, that has been used successfully to screen more than 15,000 applicants.

STEP 2 BRS scores and analyzes the responses employing an exclusive, computerized test analysis designed specifically for security and law enforcement personnel.

STEP 3 BRS sends you a concise, easily understood report that pinpoints applicant personality problems and indicates their risk level.

Three steps that expedite and increase the validity of your evaluation process while measurably reducing screening costs.

Write or call us today for further information.
